

...a significant advance in marine safety!

ECHOMAX

Active-X-Band

Radar Target Enhancer

With LED Navigation light

Wiring instructions

Please wire RTE as per instructions contained within the Active X operation manual included.

There are four wires coming from the RTE.

Brown and Black are for the RTE To control box

Brown (+)

Black (-) or 0V

Yellow/green and Grey are for the light.

Supply is polarity sensitive

Yellow/Green wire + Positive

Grey - Negative

The light will not work if wired up the wrong way round.
